Max Concorde works has engaged the best team of design professionals who create layouts with maximum green spaces and smart designs. Our customers enjoy the special advantage of environmental friendly development with advanced amenities and modern design. We have accomplished timely completion of our projects with a span on one year. Our services include land development, planning, construction, financial aid through bank and marketing expertise.

Project

Banashankari 6th stage, 4th block is fast growing into one of the preferred residential localities in Bangalore today. Strategically placed close to protected forest area, near the NICE road, on the Bangalore-Mysore, the area is high on demand.

The locality and its surrounding comprise of BDA (Bangalore Development Authority) layout which are high on demand for its good facilities and are surrounded by high-end private Apartments.

“Connectivity is excellent whether it be to the center of Bangalore or to Electronic city. All the roads are broad, as they are all either ring roads or National Highways or the newly constructed NICE road. The Metro station about 10 to 15 minutes from the project that is also added attraction to this project.”
